*It's about working and process,
a way of bringing it back.
Ageless ideas become elements of beauty.*

*Close to the land, you feel the sunrise,
the real quiet, the sunset. The rope swing,
a clothesline, the space to roam.*

**FOUR FAMILIES, FOUR
DAPPLED INDIANA DAYS**
RED GOLD, RURAL IN

On the farm, you breathe it. You play it. You sleep it.
Real stories don't need massaging, they're just there for us.
The roots take hold.

A CENTRAL PARK CANVAS

A tranquil study, steps away from endless chaos.

*We start with a few ideas, a loose storyboard.
We set out and it unfolds before us ... simmer and react.
It all kind of happens at once.*

JOY RIDE

SCHWINN BICYCLES, AUSTIN, TX

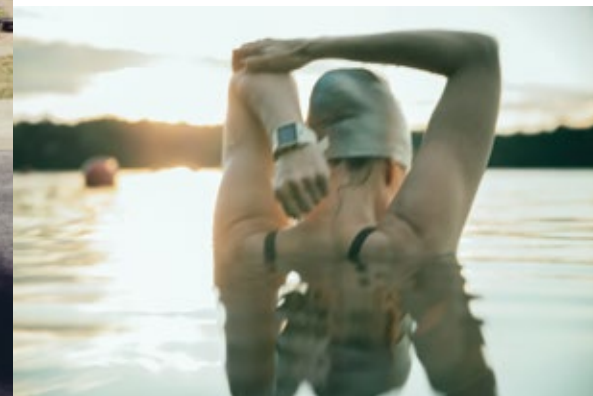

It's always been there ... that feeling as you peel off and go see your friends, and every milestone after that. Austin, Texas sunshine and a posse of kids on the go.

Training wheels and the first taste of self-powered speed. Scraped knees, scooped-up hugs, sailing down the sidewalk. Soak up every moment.

Ease in, stretch out, get a feel for it. Flat out, dive in, arms slice the surface. Below, an engine kicking past the cattails.

AQUA EST VITA

MINNEAPOLIS, MN

Our bodies are composed of water. We need it to survive. The smooth, soothing rhythm of swim, primal and innate. Patience and discipline make a mark, leave a wake. Weightless freedom.

Cover the steps and look from every angle, from the big thinking down to the tiniest thread of detail.

BEYOND THE DRAWING BOARD

ST. JUDE MEDICAL, NORTH AMERICA

Beside safety and quality control, behind screens and lab doors, every innovative technology and treatment can be traced back to a single person. Seeds of care that start before patients reach the hospital.

Quiet. Listen. Head for
the treeline. Make a dandelion
wish, it only takes a whisper.
